Active users
24,320 students & 1,120 clubs

College Accounts

Central admin controls for approvals, budgets, venue allocations, and analytics across multiple fests.

Club Accounts

Event creation, volunteer coordination, ticketing and sponsor management tailored for clubs.

Student Accounts

Personalized event discovery, easy registration, wallet management and calendar integration for students.

How it all connects

College → Fest → Club → Event

Diagram: College administrators create Fests, Clubs operate within Fests, and Clubs run Events that students register for. Permissions, scheduling, and reporting flow downwards while registrations and attendance data flow upward.

Use the hierarchy to define roles, approvals and reporting boundaries at each level.
